This annual report and accounts is printed on Revive Special Silk, which is composed of 30% de-inked post-consumer waste with the remainder being virgin wood fibre from sustainable sources. The bleaching is a mix of TCF and ECF processes. The paper mill involved in the production supports the growth of responsible forest management and is accredited to ISO 14001 which specifies a process for continuous environmental improvement, and is FSC certified. The printer is ISO 9001:2000, ISO 14001, EMAS and FSC certified. They also hold the Queen's Award for Enterprise for sustainable development and were the world's first printer to be Carbon Neutral. If you have finished reading this report and no longer wish to retain it, please pass it on to other interested readers or dispose of it in your recycled paper waste.
